Subject: RE: Possible Transfer

There is no search nor is it proper for a transfer to the projection screen art (359/443+). As far as class 353 goes, it would be best for examiner Dowling to determine that. You may want to take a look at the schedule for class 248 (supports) in your search to see if there is a search there or not.

Sincerely,

Christopher Mahoney

Subject: Possible Transfer

Greetings,

I have an application PG PUB 20020158839 (US 09/936915) which is claiming the CRT structure and a method of manufacturing the structure. I was curious if this case might fit your area better. If you have any search areas in the exclusion of a transfer, please let me know.

thanks for your time,

Brian
